

VIRT 100 : Introduction to Virtual Reality

This course will explore and experiment with multiple types of virtual reality tools and techniques. Students will be exposed to the different forms that the medium can currently take, and experience content with a range of delivery mechanisms. The goal of the course will be to make a series of small, very simple test experiences that give the student the understanding of what is currently possible, as well as grasping best practices that are unique to the medium.
